November 16, 1984

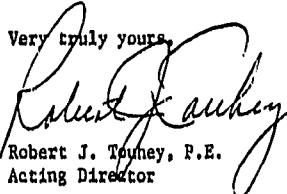

Mr. Roy Schrock
Remedial Project Officer
U. S. EPA - Region III
Sixth & Walnut Streets
Philadelphia, PA 19106

Dear Mr. Schrock:

This letter is to confirm the Delaware Department of Natural Resources and Environmental Control's (DNREC) request for the most expeditious process for selection and implementation of an alternative water supply for the residents nearby the Tybouts Corner Landfill. We agree that sufficient information has been gathered to prepare the Focus Feasibility Study and to select an alternative.

We also concur with EPA's interpretation that an Initial Remedial Measure (IRM) will shorten the time necessary to prepare and sign the Record of Decision. Therefore, by this letter, the DNREC formally requests that an alternate water supply be provided at this time through an IRM. DNREC acknowledges the requirement to pay the 10% cost share and we will plan to use our State appropriated funds for the IRM.

Very truly yours,

Robert J. Touney, P.E.
Acting Director
